

AMENDMENTS TO THE SPECIFICATION

Change page 11, lines 19-23, as follows:

It should be noted that the term of color difference(ΔE) as defined herein quantitatively shows a visual difference colors and is obtained by using Hunter's color difference formula as defined in 6.3.2 of JIS Z 8730 (Method for Specification Color Difference) which is incorporated herein together with JIS Z 8722 referred to by JIS Z 8730. The color difference formula is as shown below:
